FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2004

WITH INDEPENDENT AUDITORS' REPORT

June 7, 2004

Board of Trustees Lodi Township Washtenaw County, Michigan

This letter discusses the upcoming conversion of the Township's financial statements to meet the reporting requirements under Governmental Accounting Standards Board (GASB) Pronouncement 34.

For the year ending March 31, 2005, Lodi Township will need to meet the following requirements:

1. On a full accrual financial statement, the Township will report all fixed assets owned by the Township. This would include all land, buildings, equipment, and any other possible assets owned by the Township.

Related depreciation expense will also have to be determined.

- 2. Any long-term general obligation debt or long-term liabilities would be reported. The Township currently has no long-term general obligation debt or liability.
- 3. The Township will be providing a Management's Discussion and Analysis (MD&A) letter. This letter will discuss the financial figures in the audit report and provide information on future financial activity.

We will work with the Township Clerk and other Township officials on the above requirements. The fixed assets, for the most part, can be obtained from general fixed asset records or insurance evaluations. And, we will assist in the preparation of the MD&A letter.

If you have any questions on GASB Statement No. 34 and the financial reporting by the Township on next year's audit report, give me a call.

Sincerely,

ROBERTSON, EATON & OWEN, P.C.

NOTES TO FINANCIAL STATEMENTS

March 31, 2004

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Lodi Township, Washtenaw County, Michigan conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the more significant policies.

A. FUND ACCOUNTING

The accounts of the Township are organized on the basis of funds and account group, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into two generic fund types and two broad fund categories as follows:

GOVERNMENTAL FUNDS

GENERAL FUND - The General Fund is the general operating fund of the Township. It is used to account for all financial resources except those required to be accounted for in another fund.

FIDUCIARY FUND

TRUST AND AGENCY FUNDS - Trust and Agency Funds are used to account for assets held by the Township in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. These include Expendable Trust and Trust and Agency Funds. Expendable Trust Funds are accounted for in essentially the same manner as governmental funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

B. FIXED ASSETS AND LIABILITIES

The accounting and reporting treatment applied to the fixed assets and liabilities associated with a fund are determined by its measurement focus. All governmental funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. The reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group, rather than in governmental funds. Public domain general fixed assets consisting of certain improvements other than buildings, including roads, bridges, curbs and gutters; streets and sidewalks, drainage systems, and lighting systems, are not capitalized along with other general fixed assets. No depreciation has been provided on general fixed assets.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are valued at their estimated fair value on the date donated.

The account group is not a "fund". It is concerned only with the measurement of financial position. It is not involved with measurement of results of operations.

C. BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental funds and expendable trusts are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Taxpayer-assessed income, gross receipts, and sales taxes are considered "measurable" when in the hands of intermediary collecting governments and are recognized as revenue at that time. Anticipated refunds of such taxes are recorded as liabilities and reductions of revenue when they are measurable and their validity seems certain.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

D. INVESTMENTS

All invested money of the Township is in certificates of deposit and money market accounts and is shown at cost in the financial statements.

E. COMPARATIVE DATA

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the Township's financial position and operations.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. PROPERTY TAXES

The Township property tax is levied on each December 1 on the taxable value of property located in the Township as of the preceding December 31.

The Township's 2003 ad valorem tax was levied and collectible on December 1, 2003. It is the Township's policy to recognize revenue from the current tax levy in the current year when the proceeds of this levy are made available for the financing of Township operations. Payment from the County Delinquent Tax Fund, which purchases the 2003 delinquent real property taxes, is recorded as a receivable and recognized as revenue in the current fiscal year.

G. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

H. TOTAL COLUMNS ON COMBINED STATEMENTS - OVERVIEW

Total columns on the Combined Statements - Overview are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

2. LODI TOWNSHIP - REPORTING ENTITY

The Township of Lodi is a noncharter township, governed by a Board of Trustees. As required by generally accepted accounting principles, these financial statements present Lodi Township as a primary government. There are no component units to the Township.

Lodi Township is contractually involved in a governmental joint venture with the Saline Area Fire Department. (See Note 6). The Saline Area Fire Department is a separate reporting entity. (The most current audit available is for the year ended June 30, 2003.) Lodi Township only includes its share of costs in these financial statements.

6. CONTRACTUAL COMMITMENT - SALINE AREA FIRE DEPARTMENT (Continued)

Under the terms of the agreement, the Township pays a percentage of the cost of capital outlay and operating expenditures for the Fire Department. This percentage, which is currently 32.3%, is reviewed and adjusted as necessary on an annual basis based upon real and personal state equalized value, service area, population, miles of roads, and family dwelling units.

The ownership of all personal property and an equitable interest in all real estate acquired by the Fire Department is vested in the Township in direct proportion to the contribution made by the Township to the cost of the related real and personal property. If the agreement is terminated by the Township by notice of withdrawal, the capital interest of the Township will be returned to the Township in five equal annual installments commencing one year after the date of withdrawal, plus interest at the rate of 6% per annum on the unpaid balance.
